From

The Municipal Commr, Bangalore city
No M 5-24/48 dated 2-8-47

Sir,

With reference to the information called for

8) The play ground Committee of the Bangalore City Municipality has recommended the appointment of three physical culture instructors to impart instructions in physical culture to the children under 10 years of age in the three play-grounds viz (1) Silver Jubilee park (2) Basappa park and (3) Nagade Road for two hours in the morning and two hours in the evening. The Municipal Council has approved of the recommendation at its meeting held on 13 7 49. Information as to the number of children proposed to be admitted at each centre is not furnished

at a pay of Rs 40 & 50/- & Rs 30 each

9) The cost of equipment is said to come to about Rs 6000/- (details not furnished) which together with the pay of the staff is proposed to be met out of the closing balance of the Municipality. After the preparing of the necessary equipment at these centres, the actual need would arise for keeping watchmen also which means a further additional expenditure on them

10) The success of this scheme depends upon

5991/mt V1103/mt

Opening of play grounds in certain parts in Bangalore - Appointment of physical culture instructors

The response from the public to utilise the facility and the opportunity which the Municipal Council propose to create, as the attendance at these centres is purely voluntary physical culture has now become almost a part of the curriculum in all Educational institutions and experience has shown that in the present state of things, the enthusiasm for physical culture generally leaves much to be desired, most of the students attending these classes solely due to the placement of compulsion in the schools

11) The play grounds are intended for the children to spend a free and easy time playing in their own way, as pleases their fancy. These intended Centres of training purpose, by their very nature, a kind of discipline which children of such tender age are apt to resent, in which case the response to the Scheme is bound to be cold. As no such centre at present exists and these have to be started now as an experimentation, it is a point for consideration whether only one such Centre may not be started in a suitable place to begin with instead of the three as now proposed and gradually extended to the other areas, if the results are encouraging

Yours truly,

[illegible]

Secretary to the Committee

Enclosure: As stated.

cc: Mr. Robert Williams, Jr.
Chairman, Committee on Rules
House of Representatives
Washington, D.C. 20515

Dear Mr. Chairman:

This is in response to your request for the views of the Department of Justice on H.R. 14-1178, a bill to amend the Federal Rules of Evidence to provide that certain communications between husband and wife are not privileged. The bill would add a new rule 504 to the Federal Rules of Evidence (28 U.S.C. App.) which would provide that neither a husband nor a wife has a privilege to refuse to testify or to prevent another from testifying concerning any communication made by one to the other during their marriage. The bill would also provide that the rule would not apply to any communication made during a period when the husband and wife were living apart pursuant to a decree of divorce or separate maintenance.

The Department of Justice opposes enactment of this bill. The proposed rule would abrogate the common law privilege for confidential communications between husband and wife. The privilege is based on the unique relationship of husband and wife and on the importance of protecting the confidences of that relationship. The Supreme Court has recognized the importance of this privilege in Wolfle v. United States, 291 U.S. 7, 14 (1934), where it stated that "[t]he basis of the immunity given to communications between husband and wife is the protection of marital confidences, regarded as so important an interest of society that the law will not compel disclosure of them." The Court has also recognized that the privilege is not limited to communications made during the marriage, but that it applies to communications made before the marriage as well. Pereira v. United States, 347 U.S. 1, 6 (1954).

The proposed rule would abrogate the privilege entirely, thereby destroying the protection of confidences between husband and wife. The rule would also create a new privilege for communications made during a period when the husband and wife were living apart pursuant to a decree of divorce or separate maintenance. This new privilege would be inconsistent with the purpose of the privilege, which is to protect confidences between husband and wife, regardless of their living arrangements.

The Department of Justice believes that the proposed rule would have a chilling effect on communications between husband and wife. The fear that their confidences could be disclosed in court would discourage husband and wife from communicating freely with each other. This would undermine the purpose of the privilege and would be contrary to the public interest.

For these reasons, the Department of Justice opposes enactment of H.R. 14-1178.

The Office of Management and Budget has advised that there is no objection to the submission of this report from the standpoint of the Administration's program.

Sincerely,

Robert H. Bork
Solicitor General
